

Environmental Policy

The Pentagon Shopping Centre is a busy shopping centre located in Chatham, Kent with over 70 units housing many of the UK's best loved retail brands. In undertaking our daily business we acknowledge that our activities can contribute to negative environmental impacts; for example through the use of energy, natural resources and the production of waste.

The Pentagon Shopping Centre is committed to prevention of pollution and the protection of the local and global environment, by minimising the negative environmental impacts of our operations. We will work with our suppliers, occupants and stakeholders to effect positive environmental change.

We regard compliance with environmental legislation, and other requirements to which we subscribe, as a minimum requirement. We shall identify opportunities to exceed legal and other requirements which apply to the environmental aspects of our activities and services.

The Shopping Centre's senior management are committed to ensure that protection of the environment is firmly embedded in the Centre and its employees culture, and we will endeavour to influence our suppliers and customers in a similar strategic environmental manner.

This Environmental Policy is enacted via the Shopping Centre's Environmental Management System (EMS). The EMS provides a detailed framework for the setting and review of objectives and targets to ensure continual improvement of the EMS and environmental performance.

We are committed to best environmental practice, including reduction of waste and minimisation of resource consumption in the operation of our Shopping Centre, thereby minimising expenditure and the impact upon the environment.

We will continue to promote internal awareness of environmental issues through communication, training and awareness with those working for and on behalf of the Shopping Centre and will seek to ensure all are competent to deliver our Policy commitments.

We shall encourage environmental protection among our suppliers and contractors, and seek to influence their actions in order that we can promote the consideration of life cycle impacts of their activities, and meet our own standards of environmental performance. We will lead by example and encourage our occupiers and clients to adopt environmental best practice.

The Pentagon Shopping Centre is committed to the implementation of this Policy and will support fully all those authorised to implement it. We shall communicate our Environmental Policy to key stakeholders and will make our Policy publicly available.
